

# NEW KUHNLE BOATS

A boat that converts into a swimming platform and a boat that caters for up to 12 people.

The houseboat specialist has some new concepts for their boats in 2018.

We've introduced a new **Kormoran 1290** with a wider stern stairway, underfloor heating in the saloon and innovative lighting. The Kormoran 1290 sets a new standard for boat accommodation.

We've taken on board customer feedback and we've refurbished the **Vetus 1200 G** to enable crews of up to 12 people. The new saloon and stern design enables larger groups ample space on this license free boat.

A Preview of our new **Febomobil 720 open** can be found on our website ([www.kuhnle-tours.com](http://www.kuhnle-tours.com)). By replacing all the upper side walls and roof with stable tarpaulin the Febomobil 720 can be transformed into a fantastic swimming platform. The boat still has a bathroom with static walls and a kitchen with fridge. It's a great combination of boat and tent and is ideal for fishing trips.

You can find more information on all of our products in our Boating Catalogue, or on our website [www.kuhnle-tours.com](http://www.kuhnle-tours.com).
